Lt Col Robert A. Joy Chief, Intelligence Branch Engineer Intelligence Division Office of the Chief of Engineers Room 1325, Building T-7 Washington 25, D.C.

Dear Colonel Joy:

I wish to thank you, your associate, Mr. Alvin A. Munn, and the Army Map Service for the handsome and useful strategic planning map of Eurasia. It makes a fine addition to my office and serves as a continuing reminder of my recent visit with your NIS-producing components. I found that visit highly profitable to me personally and believe our exchange of views will prove mutually beneficial as work on the NIS goes forward.

Sincerely,
